

# BOATING WORKSHOP

*Operating safely and legally during humpback whale season*

Attend a special workshop to learn how you can safely and legally operate on the water during whale season. As many as 10,000 humpback whales are in Hawaiian waters every year from November to May. These acrobatic, 45-ton marine mammals delight wildlife enthusiasts, but can pose safety hazards for Hawai'i's boaters. Vessel-whale collisions occur every year in Hawai'i and are a serious risk to boaters and whales.

## BIG ISLAND WORKSHOP SCHEDULE:

### *KAILUA-KONA*

Date: Monday, December 11, 2006

Location: Outrigger Keauhou Beach Resort

Time: 6:30 p.m. to 8:00 p.m.
